Need a chiller fast to meet a deadline or unplanned project?

No problem. **ICS** have the largest and most comprehensive range of process and HVAC chillers in stock right now for you from **1kW** duty all the way through to **600kW** units.

We have 450 ECA Government-approved chillers, including the latest **Turbocor, Freecooling, 100% Heat recovery, Heat pump** and **Class A** equipment.

Unsure what you need and how it would apply to your application?

No problem. ICS have local engineers nationwide who are experienced at engineering a solution and providing a first-class assessment to assist with your decision-making.

So, whether you are looking to reduce running costs, energy consumption or buildings carbon footprint we can help.

Email: info@industrialcooling.co.uk

The ICS best-selling evo range

The full evo range of water-cooled chillers are optimum for industrial applications.

The chillers are designed, built and checked in compliance with ISO9001:2000 and ensure the highest efficiency and reliability levels. They offer the very latest scroll compressor technology which absorbs less energy therefore reducing your overall power use.

In addition to this, they also offer state-of-the-art electronic control to automatically optimise the performance of the chiller, which can be managed and monitored either manually or remotely.

So, if you need a chiller fast that will help to reduce running costs and energy consumption, call us now on **0800 169 3861**.

Call us now on **0800 169 3861** for a site survey by one of our experienced local cooling engineers
