

# Chiller Rental

## HVAC & Process Cooling

### 775kW Chiller

#### Features

This fully packaged chiller contains the latest energy-saving Bitzer screw compressors, with an array of 2 serviced on 2 independent refrigeration circuits and 6 steps of capacity control.

The chiller is fully Eurovent compliant and offers the latest HFC R134a.

With 2x4" quick-release water and lugged power connections, this rental chiller has been designed for a fast rental installation and start up.

The chiller can be supplied with an atmospheric or pressured set-up and can manage a wide range of temperature requirements (+20 to -10°C).

#### Technical specification

Dimensions (mm) (l,w,h)	5,800 x 2,400 x 2,500
Weight (kg)	7,200
Water Connections	2 x 4" Bauer Quick Release
Max/min Water Flow (m <sup>3</sup> /h)	50/126
Running Current (Amps)	480
Power Supply	400/3/50 – no neutral
Max. Power Absorbed (kW)	252
Power Connections	LUGS
Power Sound Level (dB(A))	84 @ 10m
Nominal Cooling Duty (kW)	775@7°C in 30°C Ambient

#### Benefits

The 775kW rental chiller has been designed to offer a low-noise option to the HVAC and process cooling market.

This lightweight unit has the smallest footprint/kW rating currently on the rental market.

In addition to this, Cool Energy is committed to reducing carbon emissions throughout the industry. Our 775kW rental chiller is currently rated Class 'A' in energy efficiency by Eurovent meaning that your electricity usage will be lower by using this Cool Energy unit.

We can also provide connecting pipework & tanks.
