

The Greener TAE

Introducing the latest range of Energy Efficient chillers from ICS.

The TAEvo range of chillers offer a combination of energy and cost savings keeping your process running smoothly for less.

We can help you Save Energy

ICS specialises in providing chillers for both Process and Air Conditioning applications. We have the latest range of energy efficient and cost saving products, including the latest TAEvo chillers.

The TAEvo range of Chillers

Do you need to replace an aging chiller?

Are you still using R22 equipment?

Let us show you how we can help you and your business save money on energy costs.

The energy saving TAEvo range offers the following energy benefits:

- **Energy savings** – The new TAEvo range can offer up to 30% energy savings against the existing TAE range.

- **Environmentally friendly** – The TAEvo range emits less Carbon Dioxide throughout its lifetime compared to the existing TAE range.

- **Cost savings** – Comparing kW/hr against ambients, TAEvo range uses less, making it cheaper to run than older chillers.

Interest Free Loans

Did you know that you could be eligible for an unsecured, interest free loan from the Carbon Trust?

If you decide to upgrade your chiller the Government are offering incentives to businesses to help assist with energy efficiency. ICS has a large range of energy efficient chillers which can help qualify for Carbon Trust funding.

Unsure about how this could benefit you and your business? No problem, ICS can visit your site and give you an energy saving guide. We can also help with your application for Carbon Trust loans.
